## Profile

---

Highly motivated and recently graduated professional seeking a challenging position in the field of Artificial Intelligence (AI) and Business Intelligence (BI). Passionate about leveraging AI technologies to enhance business decision-making processes and drive organizational growth. Looking to apply my strong analytical and problem-solving skills to contribute to the success of a dynamic and innovative company

## Education

---

2020/01 – 2024/02 **Bachelor's Degree, Artificial Intelligence**  
*University Of Jeddah*

## Professional Experience

---

2024/02 – present **Data Analyst and Business intelligence intern**  
*Tajeer Group*

- Developed and maintained databases for data analysis using SQL.
- Analyzed customer behavior patterns through A and B testing experiments and segmentation techniques.
- Built automated reports using BI Tools like Tableau, Qlikview, PowerBI.
- Developed dashboards and data visualizations to represent complex data sets.

2019/06 – 2019/08 **System Operator intern**  
*Olive Arabia*

- Follow up on the technical work in the company's facilities and ensure that they are working as required
- Installed new software applications and upgrades with minimal disruption to operations.
- Documented system configurations and changes for future reference purposes.

2019/01 – 2019/04 **Computer Networks intern**  
*Wadi Jeddah*

- Assisted in design of new networks based on business requirements.
- Network monitoring and Optimization

## Projects

---

### Graduation Project

*The intelligent Traveler's Companion*

The system was designed to enhance the overall airport experience for travelers by offering convenient access to essential flight and service information. Through the integration of a user-friendly interface, the system has the capability to suggest various services based on the user's specific requirements using a recommendation system algorithm.

## Skills

---

Data Analysis

BI Tools (Tableau, Qlikview, PowerBI)

Machine Learning Algorithms

Python Programming

Problem Solving

Strategic Planning
