## PROFILE INFO

I graduated from Yasar University, department of Electrical & Electronics Engineering and also, I'm currently studying Management Engineering at Marmara University(remote).

I consider myself to be someone who learns and adapts quick and constantly develop.

## WORK EXPERIENCE

2022 -  
Switch International Bowling Equipment's  
System Manager (Software & Electronics)  
I am responsible for the development, production and installation of the Scoring system in the Bowling Alleys. I provide on-site installation, Customer training and remote technical support. I have been to many countries for installation, training and services such as USA, South Korea, Ireland, Saudi Arabia, Singapore, Serbia...

2021-2022  
Spartakus Yazılım  
SQL Developer  
SQL and PL/SQL development, technical support.  
I worked on software development and technical support for 6 months in this company that sells and supports ERP software.

2018-2021  
SGM Elektrik  
Electrical&Electronics Intern  
I worked here as an engineer during the summer holidays during university. I generally worked in the field, Electrical panel design and installation, Solar panel and generator installation.
