

## Summary

- Analytical, comprehensive, systematical
- Effective way of working
- Independent & team-motivated
- International, multi-culture ability

Jingjing Fu

## Computer & Language Capability

- Engineering CAE (Catia V5, Patran/Nastran)
- Microsoft Project, Visio, Office package
- Modeling Language  
BPMN process modeling  
SysML system modeling
- English – fluent
- Chinese – fluent
- German – intermediate level

## Education

**10/2022 – 01/2024**      **Engineering Management (M.Eng.)**  
*International University of Applied Sciences,  
Berlin, Germany*

**09/2007 – 07/2011**      **Aerospace Engineering (B.Sc.)**  
*Technology University of Delft, the Netherlands*

## Other

**2024 – 2025**              System Engineering (INCOSE)

**2012 – 2022**              Project Management Professional (PMP)                      by PMI  
Quality Management System for Aerospace AS9100D                      by Bureau Veritas

## Working Experiences

**04/2021 – 09/2022**              **Anhui Yingliu Aviation Co., Ltd**                      **Project Engineer**  
• Support in general aviation aircraft development international projects  
• Create WBS & process, improve activity planning, task scheduling  
• Liaison in technical with external development team and suppliers (national & international)

**11/2019 – 03/2021**              **Holby Agriculture Technologies Co., Ltd**                      **Project Engineer**  
• Improve interaction with customer & cross-department project engineers team, optimize process activity flow in BPMN  
• Develop time schedule with process for planning, assign implementable tasks  
• Work on departmental process, optimize with process model, process hierarchy

**04/2017 – 10/2019**              **Sino Engine Technologies Co., Ltd**                      **Business Manager**  
• Establish parts manufacturing business in international aviation for company, managing in system context  
• Develop “international supplier development” plan (goal, timeline, milestone, team, process), implement to contract sign  
• Coordinate between parts manufacturers & company international OEM (customer) expert partner

**04/2013 – 03/2017**              **Shanghai SAIFEI EWIS Aviation Manufacturing Co., Ltd**                      **Integration Engineer**  
• Integrate overall civil aircraft EWIS interconnect system in engineering dept., processing output data with excel  
• Develop integration process instructions  
• Coordinate between teams in engineering change, ensure the final output for manufacturing

**02/2012 – 02/2013**              **3D Contech Engineering GmbH & Co., Ltd**                      **Stress Engineer**  
• Establish aircraft structural parts analysis (FE-) model, optimize analysis result w.r.t design  
• Write report & PPT

## Interest & Hobbies

- Culture & Travel
- Fitness, skating, guitar
