Motivated graduate from the Mechanical Engineering Technology program seeking professional opportunities focused on further developing my design and problem solving skills. During the course of my studies I have developed a particular interest in fabrication and machining. In addition to my education and my work experience, I have demonstrated my passion for finding solutions and improvements to mechanical problems through countless hours spent on my personal projects which include, but are not limited to repairing and upgrading a 1997 Mazda Miata. The time spent on this and other projects allowed me to apply my formal learning and increase my experience, skills and knowledge through self-learning.

SKILLS

CAD (SolidWorks, AutoCad, Space Claim)
CAM (Fusion 360)
Machining (lathe & mill)
Microsoft Office (Word, Excel)
Intermediate automotive skills (tires, oil changes, brakes, fluids, radiators, engines, etc)
Customer service/client management
Sales and Estimation
Cleanliness testing (Milliport)

APTITUDES

Able to work well in teams and autonomously
Creative
Strong analytical skills
Reliable
Loyal
Flexible
Responsible
Valid driver's license
Bilingual (French and English)

EDUCATION

Graduated from La Cité collégial in Mechanical Engineering Technology DEC (2022)

Graduated from Louis-Riel Public High School (2019)
