International Project Leader with a strong background in industrial process optimization and digitalization. With hands-on experience in multicultural environments, I'm eager to contribute to TLD's sales administration activities by improving efficiency, strengthening coordination between departments, and supporting global customer operations.

PROFESSIONAL EXPERIENCE

FORVIA SEATING (FAURECIA) – JIT Plants **Neuenstadt a.K. and Neuburg a.d. Donau, GERMANY**
VIE Digital Transformation Project Leader - Production Control & Logistics Oct 2023 – Sept 2025

- Led digitalization and automation projects for operational teams (quality, production, logistics), including training sessions for supervisors, gap leaders, and operators.
- Ensured compliance with customs regulations, facilitated cross-border shipments of returnable packaging (EU/non-EU) and managed customs clearance procedures.
- Improved shopfloor efficiency through the deployment of automated guided vehicles (AGVs), monitored KPIs, enhanced process reliability, and reduced errors.

FORVIA SEATING (FAURECIA) – JIT Plant **Chartres-de-Bretagne, FRANCE**
Continuous Improvement Engineer Apprentice – PC&L Europe Division Sept 2022 – Aug 2023

- Supported the deployment of automated reception processes for the Europe Seating division (pilot site implementation, continuous improvement, and rollout to other plants).
- Created deployment kits and standard operating procedures (SOPs) for digital tools.
- Monitored key logistics performance indicators and produced weekly reports.

FORVIA SEATING (FAURECIA) – R&D Center **Brières-les-Scellés, FRANCE**
Controlling Apprentice – Global R&D and Innovation Projects Sept 2021 – Aug 2022

- Participated in budgetary cycles (actuals, forecasts) for the Europe, Asia, and North America divisions.
- Prepared dashboards and monthly/quarterly reports on division performance.
- Monitored innovation project costs and analyzed variances against budgets.
- Contributed to data management and control process improvements.
- Collaborated with the Innovation team to support project tracking and reporting.

FORVIA CLEAN MOBILITY (FAURECIA) – R&D Center **Yongin, SOUTH KOREA**
Finance Intern – R&D Controlling May 2020 – July 2020

- Analyzed and adjusted hourly rates; ensured accurate recording of costs and revenues.
- Prepared monthly closing operations (depreciation, cost reallocations, inventory management).
- Worked within a multilingual finance team of 7 members.

EDUCATION

OMNES Education (INSEEC Msc) **Paris, FRANCE**
Master of Science in Project Management and Business Development 2022 – 2023

EXCELIA Business School (Sup de Co) **La Rochelle, FRANCE**
Bachelor of International Business Administration (BBA) 2018 – 2022

- Proficient in SAP FI/CO, WM, MANUF, DMC/MII, Palantir.

Project Management :

- Planning and monitoring of KPIs and objectives
- Communication and training preparation
- Agile methodologies in multicultural environments
- Continuous improvement mindset.

Interpersonal :

- Time management and teamwork skills
- Curiosity, creativity, and attention to detail
- Autonomy and versatility
- Reliability and rigor.

HOBBIES

- Passion for classic vehicles: owner of a 33-year-old Volvo 940 sedan and a 25-year-old BMW R1100S motorcycle, both carefully maintained (patience, rigor, attention to detail)
- Practice of pottery, modeling, and ceramic decoration: cultivating imagination, attention to detail, and perseverance through artisanal workshops
- Over 10 years of piano practice: interpretation of classical music, developing discipline, attention to detail, and stress management through public performances
- Exploring cultures, craftsmanship, and gastronomy through travel: born in Saudi Arabia to a French-Korean family, I embrace cultural diversity in everyday life.
