PROFESSIONAL SUMMARY

I'm Skilled Maintenance Technician with 3+ years of experience at **(Hyundai Nishat Motors)**, specializing in troubleshooting, repairing, and maintaining automotive machinery. Proficient in preventive & corrective maintenance and implementing solutions to minimize downtime while ensuring high-quality standards. Strong technical expertise and a collaborative approach to optimize efficiency in fast-paced environments.

SKILLS

- Electrical & Mechanical Systems Knowledge:
- Troubleshooting (Electrical & Mechanical)
- Preventive & Corrective Maintenance
- HVAC systems

SYSTEM

Microsoft Office
Computer Skills
Equipment's Installations.

WORK EXPERIENCE: -

MAINTENANCE TECHNICIAN (HYUNDAI NISHAT MOTOR (HNMP))

(SEPTEMBER 2021 – Present)

- Maintenance and troubleshooting of conveyors (booth & oven), ovens for plastic and batch parts, AHUs, and HVAC systems
- Expertise in paint circulation systems (PCS), including pumps and regulators
- Overhauling of centrifugal pumps, pneumatic cylinders, and exhaust fans
- Performing preventive maintenance (PM) and corrective maintenance to ensure smooth operations
- Installing, relocating, or removing machinery and equipment with precision
- Conducting diagnostics and repairs for electrical and mechanical systems
- Monitoring equipment performance and suggesting modifications for efficiency
- Documenting maintenance logs and ensuring strict adherence to safety protocols

Key Skills

- Expertise in electrical and mechanical troubleshooting and systems knowledge
- Proficient in preventive and corrective maintenance of industrial machinery

- Skilled in installation, overhauling, and maintenance of HVAC, AHUs, centrifugal pumps, pneumatic cylinders, and paint circulation pumps
- Advanced PLC (Programmable Logic Controllers) programming and instrumentation knowledge
- Strong knowledge of Microsoft Office and computer skills
- Ability to ensure compliance with safety protocols and maintain high organizational standards

Notable Projects

- Installed pusher cylinder on conveyor as part of the 1st QC Circle Project
- Designed and implemented an automatic conveyor cleaning system in the 2nd QC Circle Project

EDUCATION & QUALIFICATIONS

Bachelor of Science (Engineering Technology)

The Superior University of Lahore: -

(BSc ELECTRICAL ENGINEERING TECHNOLOGY) (Sep 2020 to Sept 2024)
