I am Joshua Lozoya, I am determined, motivated, hard working, and disciplined. I have been in the Marine Corps for the past five years where I have learned the importance of time management, reliability, inspectional readiness of million dollar equipment, hands on mechanical experience, certification and credential qualifications, and following orders. In addition to these attributes, I have excellent people skills along with great communication. I also give one hundred percent for everything that I do, no matter how small the task. I am currently transitioning out of the Marine Corps and expected to separate honorably on June 17, 2023.

Authorized to work in the US for any employer

Work Experience

Mechanic

U.S. Marine Corps - Miramar, CA

July 2018 to Present

In the Marine Corps, I am a mechanic/ technician for aircraft equipment. I am able to teach, explain and show new coworkers how to properly complete each procedure so they don't mess up millions of dollars worth of equipment. I have learned how to inspect other Marines work to find any problems, mishaps or laziness. I have also learned, how to lead an entire work center efficiently. In addition, I have learned how to confidently and respectfully talk to those above me, and fix anything they ask of me. I have received a NAM (Navy & Marine Corps Achievement Medal) for exceeding supervisor expectations in assisting and maintaining a 98% ready for issue gear, which resulted in more than 1,500 flight hours and over 25 student pilots getting qualified in their specific aircraft.

Education

High school diploma

Judson High School - Converse, TX

August 2014 to June 2018

Skills
