PROFILE

Looking to obtain an electrical apprentice position where I can use my skills and education. I get along with others, follow instructions and do as much as I can since I like to be doing work rather than doing nothing

SKILLS

- Electrician Apprentice
- Basic Electricity
- Run wire, cables
- Electronic and Electrical Principles

EDUCATION

Lincoln Technical Institute, East Windsor, CT July 2020 - August 2021
Electrical / Electronics

- We went through a lot of commercial and pipe bending
- Doing layouts such as kitchens which we used 12 gauge wiring and offices using mic cable
- We touched some motor controls which I have some understanding of but can need more experience
- Also low voltage I've been pipe bending and running wire which I am decent at doing
- Installing doorbells and fire alarms

LICENSES

OSHA 30, Bloomfield, CT August 2020 - September 2020
Did 30 hours course and got my OSHA card and certificate

VOLUNTEERING

Working on others lawns, Bloomfield, CT July 2019 - August 2021
