OBJECTIVE

To become a valuable member of a visionary and disciplined organization, leveraging my extensive knowledge and experience in aviation life-saving equipment technology, complemented by my military background, to contribute to its overall success.

JOB EXPERIENCE

LIFE SAVING EQUIPMENT TECHNOLOGY

2001 -2023

Successfully completed 22 Years service in Pakistan Air Force, As an aviation life saving Equipment technician. Such a span of service, PAF offer me a chance to acquire in high standard of professionalism by working experiences in operational, intermediate Depot and Factory levels.

Inspection, maintenance, packing, re-packing of Parachute, survival kit and drag chute of aircrafts equipped with ejection/ non ejection Seat and carry parachute system. Different version and technology like American (C-130) French (all types of Mirages) Chinese (Jf-17 are credited in my exceptional service of PAF. I am also capable in handling, servicing, maintenance and testing of Flying helmet, NVG, anti G suit and all types of floatation equipment's.
