Authorized to work in the US for any employer

Work Experience

Construction Laborer

Rhino Construction Company LLC-Acton, MA

August 2024 to Present

- Assisted in the construction of residential and commercial buildings, ensuring adherence to safety protocols and building codes
- Operated various hand tools and power equipment, including drills, saws, and jackhammers, to complete assigned tasks
- Mixed concrete according to specifications and poured it into forms or onto surfaces for smooth finishes
- Laid bricks or stones in mortar beds to construct walls or other structures as per architectural plans
- Assisted with excavation work by digging trenches or holes using shovels or excavators
- Cleaned construction sites from debris and hazardous materials on a regular basis to maintain a safe working environment
- Measured distances accurately using tape measures or laser levels to ensure precise placement of structural components
- Operated heavy machinery such as bulldozers, backhoes, loaders, or dump trucks under supervision when necessary
- Prepared construction sites by clearing obstacles such as rocks or tree stumps before starting any project activities
- Followed instructions from supervisors regarding daily tasks while maintaining a strong focus on quality craftsmanship
- Maintained inventory of tools and equipment used during projects; reported any damaged items promptly
- Collaborated with team members effectively to accomplish project goals within specified timelines
- Supported skilled tradespeople (e.g., electricians) by providing assistance during installations or repairs
- Safely transported construction materials across job sites using wheelbarrows or hand carts
- Constructed temporary structures such as scaffolding or barricades to facilitate construction processes
- Assisted in the installation of plumbing, electrical, or HVAC systems under the guidance of licensed professionals
- Operated power tools such as drills, saws, and grinders to cut materials or create openings as required
- Maintained a clean and organized work area by properly storing tools and equipment after each shift
- Followed blueprints, sketches, or oral instructions to perform assigned tasks accurately
- Performed basic maintenance on construction equipment to ensure proper functioning and prevent breakdowns
- Assisted with landscaping tasks such as planting trees or shrubs around completed structures when needed

- Worked at heights using ladders, scaffolds, or aerial lifts while adhering to safety guidelines at all times
- Operated laser levels or transit levels for accurate alignment during construction projects requiring precise measurements
- Served as a reliable team member by consistently showing up on time and ready for work each day
- Communicated effectively with supervisors and coworkers regarding project progress updates or potential issues that may arise
- Maintained knowledge of different types of building materials used in construction projects for efficient material handling practices
- Adhered to company policies regarding safety procedures and personal protective equipment usage at all times
